## From our Management Company (CRS)

Recently, there have been many questions about what is necessary in order for trash to be taken away. If you refer to the communication sent to the community last year, homeowners are no longer allowed to place trash bags on the side of their container. All trash must be inside the container with the lid securely closed. Any large items or overflow must be coordinated with Alpine directly by calling, (303) 744-9881. Please note that homeowners are responsible for any overflow charges from Alpine. If your container has been damaged, or you would like a new one, please call Alpine directly and they will have one delivered to you.

The recycling process has not changed. There is a separate truck that will come through the neighborhood for recycling. Please ensure that your recycling container is out to the curb and covered in a way that does not allow the refuse to be blown away. Plastic bags of any kind are not allowed. The bags are not recyclable and will contaminate other items during the recycling process. If you have a question about whether or not something is recyclable, please call Alpine Waste and Recycling.
