To prepare your items to be recycled, please make sure to remove as much of the food residue and liquid as possible. In addition, please make sure there are **NO PLASTIC BAGS** mixed in your recyclables.

Here are some more helpful hints for recycling:

Aluminum or Tin Cans ONLY - Please do not crush the cans and make sure any aerosol cans are completely empty. Examples: Shaving cream and hairspray cans. Labels left on cans are okay.

Bags - Brown paper bags are acceptable, but please **NO PLASTIC BAGS**. They could potentially get stuck in the conveyor belts and shut down the entire operation while we try to locate the jam.

Bulk/Junk Mail - If you can tear it, we can take it! Don't worry about removing stamps, staples, or sticky notes. NO TYVEK plastic mailing folders.

Cardboard – Please FLATTEN BOXES! No waxed lined cardboard is accepted in the recycling mix, but it can be composted.

Chip or Paperboard—Please FLATTEN chip and paperboard. Examples: Cereal boxes, soda carrier boxes, tissue boxes, paper towel/toilet paper tubes and microwave food boxes.

Magazines, Newspapers and Phone Books - Please discard plastic bags around these items, as well as CDs and magnet.

Office Paper – Again, if you can tear it, we can take it. All types of office paper are accepted, and colored paper is fine. No need to remove staples, paperclips, tape or sticky notes. **NO SHREDDED PAPER!**

Styrofoam – Packing type foam or Styrofoam are accepted, but please **NO PACKING PEANUTS!**
